

Vitacress Herbs Limited 2017 Gender Pay Gap Report

The Vitacress team has one goal: to provide the freshest, tastiest, healthiest and most exciting produce through the year. We are one of the leading suppliers of cut and pot herbs in the United Kingdom. We care for our people and endeavour to protect and enhance nature and the communities in which we work.

The gender pay gap gives a snapshot of the gender balance within Vitacress Herbs. It measures the difference between the average earnings of all male and female employees, irrespective of their role or seniority. It is distinct from equal pay, which is about ensuring that men and women are paid the same for carrying out work of equal value. Vitacress Herbs offers fair and equitable pay to all our employees, regardless of gender.

Vitacress Herbs Gender Pay Gap

	Mean	Median
Vitacress Herbs Gender Pay Gap	16.8%	17.4%
UK Gender Pay Gap	17.4%	18.4%

We are pleased to report the Vitacress Herbs gender pay gap is lower than the UK national gender pay gap. This is because we pay spot rates for most roles, regardless of gender. However, there are many reasons for a gender pay gap. Our business is subject to seasonal variances throughout the year. For many of our employees earnings can vary during our busy seasons and the hours and shift patterns worked. The gender pay gap calculations are a snapshot at a defined date as at 5 April. While our gender pay gap is better than the UK national gender pay gap, we aspire to continuously improve.

Bonus Pay Gap

	Mean	Median
Bonus pay gap	64.2%	15.9%

	Female	Male
Proportion receiving a bonus	11%	15%

Vitacress Herbs Ltd

Runcton Nursery, Pagham Road, Runcton, Chichester, West Sussex PO20 1LJ United Kingdom

Registered in England and Wales • Reg Office: Lower Link Farm, St. Mary Bourne, Andover, Hampshire SP11 6DB United Kingdom • Reg 00786151 • VAT 864 4244 16/005

The mean bonus gap is 64.2%. This is because at the most senior levels in the organisation there is greater male representation in those roles.

Total Distribution of Male and Female Employees by Hourly Pay Quartile

Quartile	Male	Female
Lower	36.1%	63.9%
Lower Middle	37.0%	63.0%
Upper Middle	57.5%	42.5%
Top	65.3%	34.7%

Vitacress Herbs is committed to understanding the pay and bonus gaps in its business. The gender pay gap figures and distribution of male and female employees highlight two key points which we will make all efforts to address :-

- there is higher male representation in the upper middle and top quartiles
- there is significantly higher female representation in the lower and lower middle quartiles

Vitacress Herbs will endeavour to minimise the impact within our business.

We confirm the data in this report to be accurate and to comply with the Gender Pay Gap legislation.
